- Heavy-Duty, All Weather Camera Housing with Heater and Defroster

The screenshot shows the EarthCam.net Control Center Software interface. At the top, there is a navigation bar with the EarthCam logo, 'Control Center', and links for Home, Log out, and Support. A placeholder for 'Your Logo here!' is also present. On the right, weather information for Coral Springs, FL is displayed: Local Time: 5:39 PM, Currently: broken clouds, Temp: 72 F, Humidity: 60.5%, and Wind: 11.5 mph E/NE.

The main content area is titled 'Pool Webcam' and features a live video feed of a swimming pool. To the left of the feed are control options: 'Time/Date Stamp' (Yes/No), 'Keys', 'Edit Password', 'Options', 'Admin', and 'Quality'. To the right are buttons for 'Save Image', 'Email Image', 'Post Image', and 'View from LAN'. At the bottom, there is an 'Enter Chat' input field and buttons for 'Moblog' and 'Notebook'.

EarthCam.net Control Center Software

Easy-to-use professional-level software that delivers the speed, accuracy, and powerful tools you need to view and manage your webcam network. EarthCam's Control Center Software requires no downloads and acts as an online suite of utilities enabling enterprise-wide access through a local network or Internet connection.
